**Subject:** RE: Prince George's County Police Department-Federal investigation

Hi all,

Igbarse is a name that familiar to me – he was a creds committee case from about 15 years ago. I'll follow up with Virginia to see if there is additional background to help with context.

Kara

Lisa,

No, he didn't elaborate on documentation previously received. I recorded the call, and he was pretty specific about next steps, so we can listen to the call tomorrow.

This is a complex case and it appears that Dr. Charles is well known to the Credentials Committee. We have three recorded instances for which there has been allegation that Dr. Charles provided a false response to item 1 on an application for the USMLE and applied to take a Step that he had already passed. Our records also indicate that he received two ECFMG certificates, obviously obtained by falsifying information on subsequent applications.

In addition Naima, who took the initial call from Detective Evan, was able to locate an additional Identification number under the name Oluwafemi Charles Igberase, 0-482-700-2, and has request for this file. Once we have the additional file we'll be in a better position to determine what the authorities might be looking for.

I'll be in all day tomorrow so just let me know when you'd like to discuss this case.

Have a good evening!  
Suzann

Did he receive the information that we sent to the agency in 2014? Did he say what more he wants from us?
